

# Panelman Engineering (PTY) LTD

Reg. No. 2012/085401/07

## MOBILE PARK HOMES

Structures are constructed using a suspended steel chassis as a sub structure: Heavy duty steel base frame suspended from adjustable jacks.

Super Structures are constructed using insulated panels. Typically, these panels have a lifespan of 30 years before it needs to be repainted.

**\* BUILT TO ANY SIZE \* APPEASING FINISH \* ENERGY EFFICIENT \* AFFORDABLE \* QUICK ERECTION**

Insulated panels provides a strong surface to mount shelves, TV's, frames, etc.

Maintenance and repairs are also part of our service.
